Results-driven Python Intern at Thought Bliss Solution Pune Pvt Ltd., skilled in Python programming and problem-solving,. successfully collaborated with teams to enhance internal applications, actively engaged in code reviews, and improved performance through debugging. Committed to professional growth, with hands-on experience in version control and Agile methodologies.

Professional Experience

Thought Bliss Solution Pune Pvt.Ltd - Pune
Python Intern

06/24 - 08/24

- Collaborated with the development team to design and implement new features for
- Internal applications, demonstrating proficiency in working with teams and technical solutions.
- Participated actively in debugging and troubleshooting code, improving
- performance and gaining experience in software development
- methodologies.

Education

Enzo Chem Collage Yeola
HSC - 80%

06/20 - 03/22

Sanjivani K.B.P Polytechnic Kopargaon
Diploma - 85.20%

07/22 - 07/24

Sanjivani University
B.Tech Artificial Intelligence And Data Science - 8.45

06/24

Projects

SUN TRACKING FOR SOLAR PANEL USING ARDUINO

- The Sun Tracking Solar Panel project utilizes an Arduino-based system to optimize the angle of solar panels by following the sun's movement throughout the day.
- This innovative approach enhances the efficiency of solar energy capture, allowing solar panels to generate more electricity compared to fixed installations.

Netflix Stock Price Analysis Dashboard (2002-2025)

Created a Power BI dashboard to analyze Netflix's stock trends, trading volume, and price movements. Identified key insights, including stock growth post-2015 and trading volume patterns. Used data visualization to highlight investor sentiment and market trends.

Key Skills

- Python programming
- Version control
- SQL
- Database Management
- Problem solving
- Java programming
- Agile methodologies
